

The Umbra Initiative | Doomsday Protocol

In the case of The Umbra Initiative is found out by any unauthorised third party, Doomsday Protocol will be initiated.

In this protocol, there will be an overview on what to do if it is initiated, and how you will know it has been initiated.

Overview

If the Doomsday Protocol is Initiated you will be texted the following code word to your phone "Alayna" if you get texted that code, you are to remain cool, do not reveal anything, do not say a word unless it is to a trusted individual who has sworn to keep TUI secret, OR you may speak about it secretly to other members of TUI.

Once you have any time in the day that is free, you are to proceed to the nearest Headquarters of TUI, which is at the location designated to you. You will then be briefed on the incident that occurred, these incidents can include the following

- TUI is made no longer secret
- TUI is under an immediate threat
- Numerous agents have fallen
- TUI needs to move locations due to a leak of location has been made aware to the government/police/threatening oppositions

If any of these incidents occur, you will take these steps.

Firstly you will head to the nearest Headquarters.

Secondly you will head to the Senior Agent, or Director in the Headquarters and get briefed on the situation.

Thirdly you will then be given steps on how to proceed, these steps could be getting issued a new code name, given the new location of the new Headquarters, or getting given the notice that all activity is suspended until the awareness of TUI is cleared and hidden again.

Conclusion

At The Umbra Initiative, we hope we never encounter the need to initiate the Doomsday Protocol. But if you do, keep this protocol in mind to correctly, professionally and respond to the protocol the TUI Agent way. Keep TUI safe, secret, and confined.
